SYB Aesthetics

Everyone is born beautiful.

The definition of beauty has changed from wanting to look like someone to bringing out your beauty within. Samyang believes in value as art. SYB Aesthetics is derived from combining art with technology. By bringing out your embedded beauty with Samyang's technology, SYB Aesthetics provides a helpful and safe solution to stay young and beautiful.

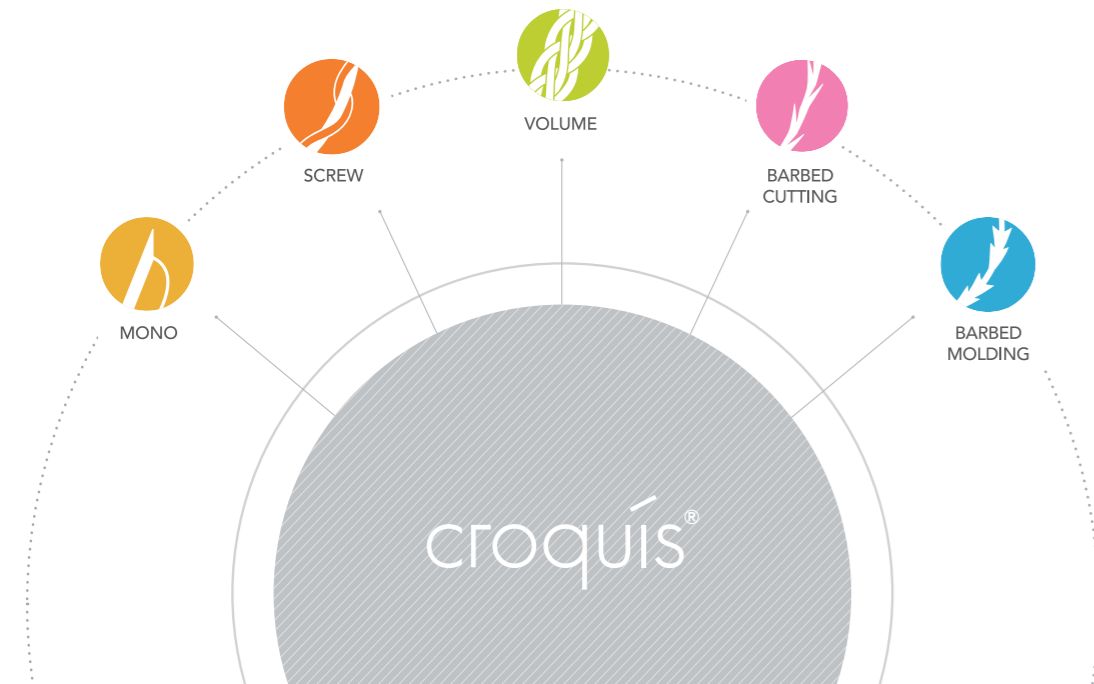

Art Technology

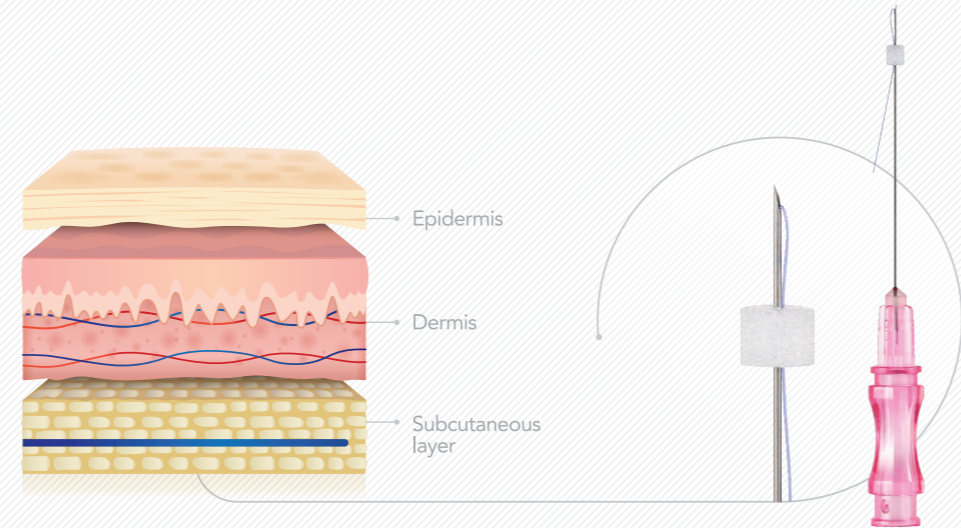

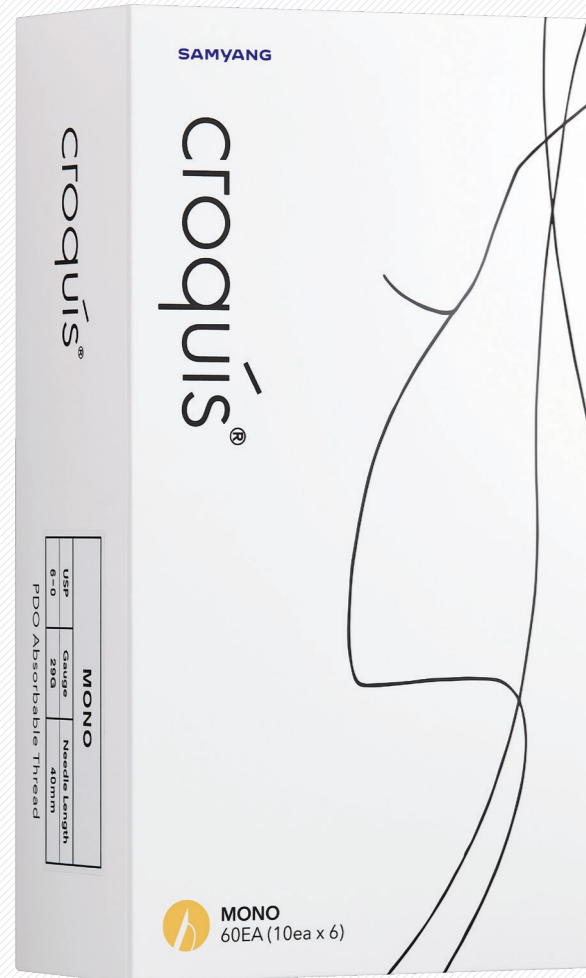

croquis®

Brand Motive

croquis® is motivated by the drawing technique of describing an object in a short period of time. Find your embedded beauty through skin rejuvenation and tissue repositioning.

RETURNING TO THAT YOUTH

MONO

Tightening ●●● | Volume ●○○○

croquis[®] MONO stimulates neocollagenesis, which not only improves your overall skin quality but also fully absorbs into the body over time.

Material : PDO (Polydioxanone)
 Contains : 60ea / box (10ea / Al pouch * 6)
 Thread Type : _____

Needle		Thread	
Gauge	Length (mm)	USP	Length (mm)
25G	60	5 - 0	90
	90		150
27G	60	6 - 0	90
	40		50
29G	50		70
	25		30
30G	25	30	
	40	50	

Tightening ●●● | Volume ●●○

croquis[®] SCREW stimulates neocollagenesis and improves your overall skin and wrinkle through volumization effect. SCREW type also gets absorbed completely into the body over time.

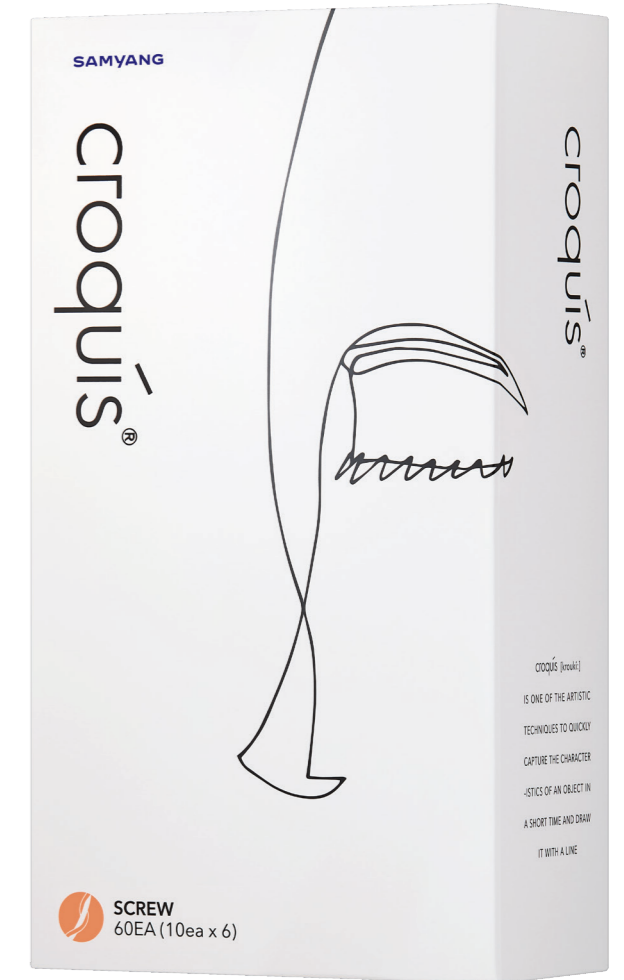

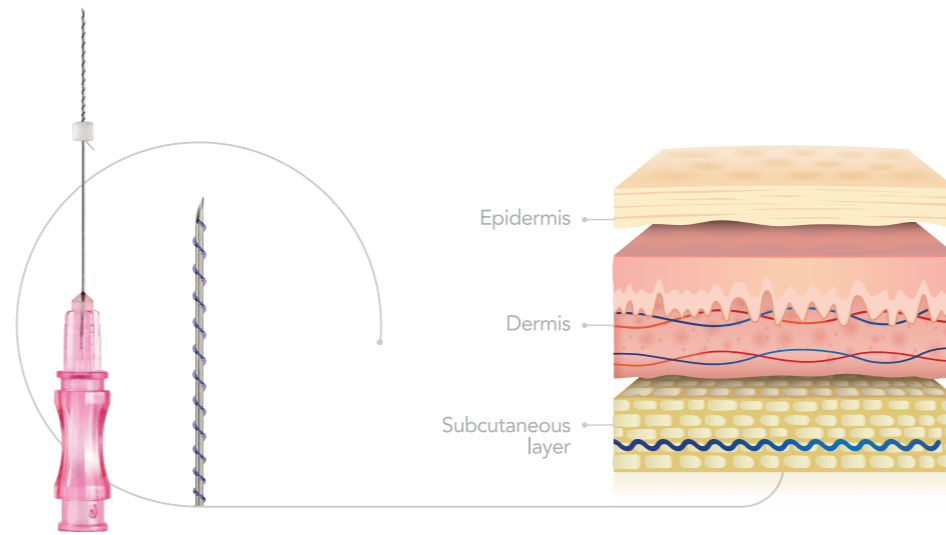

Material : PDO (Polydioxanone)

Contains : 60ea / box (10ea / Al pouch * 6)

Thread Type : 

Needle		Thread	
Gauge	Length (mm)	USP	Length (mm)
26G	50	5 - 0	70
	60		90
	90		130
27G	40	6 - 0	52
	50		70
29G	40	6 - 0	52
	50		70

B RINGING THAT SMOOTH AND TIGHT SKIN

 VOLUME

Tightening ●●● | Volume ●●●

croquis[®] VOLUME effectively adds volume to deep wrinkles or fold, providing a smoother and more rejuvenated appearance.

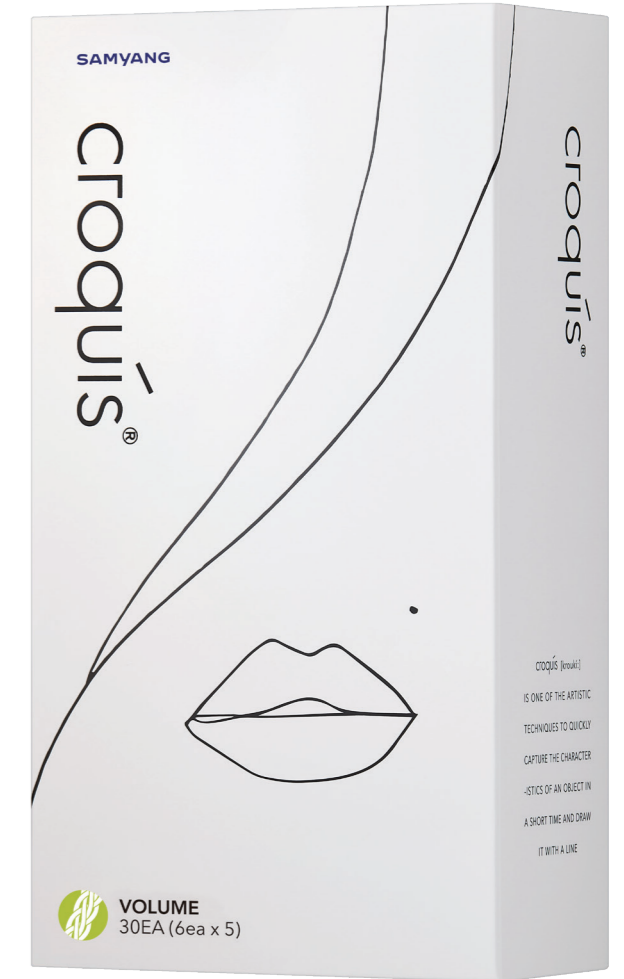

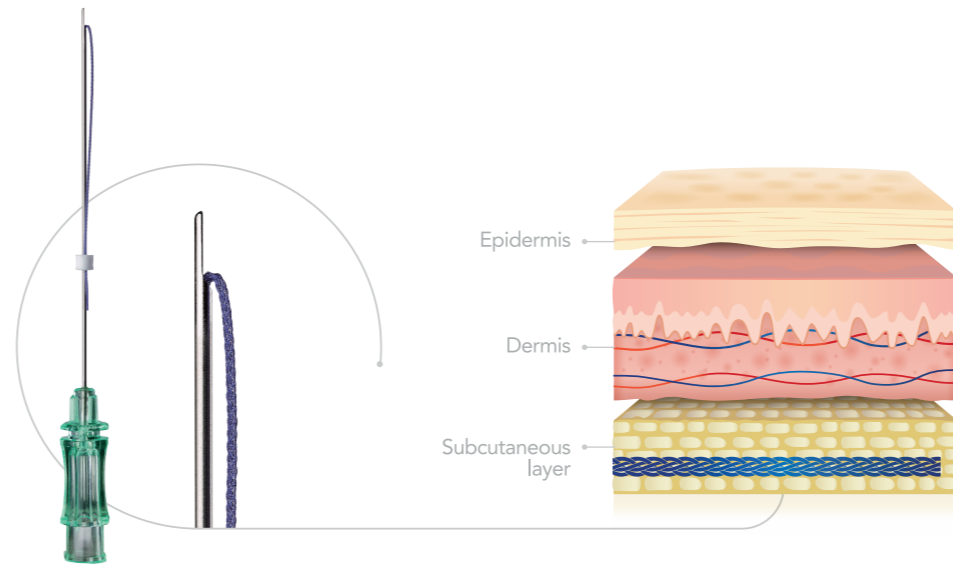

Material : PDO (Polydioxanone)

Contains : 30ea / box (6ea / AI pouch * 5)

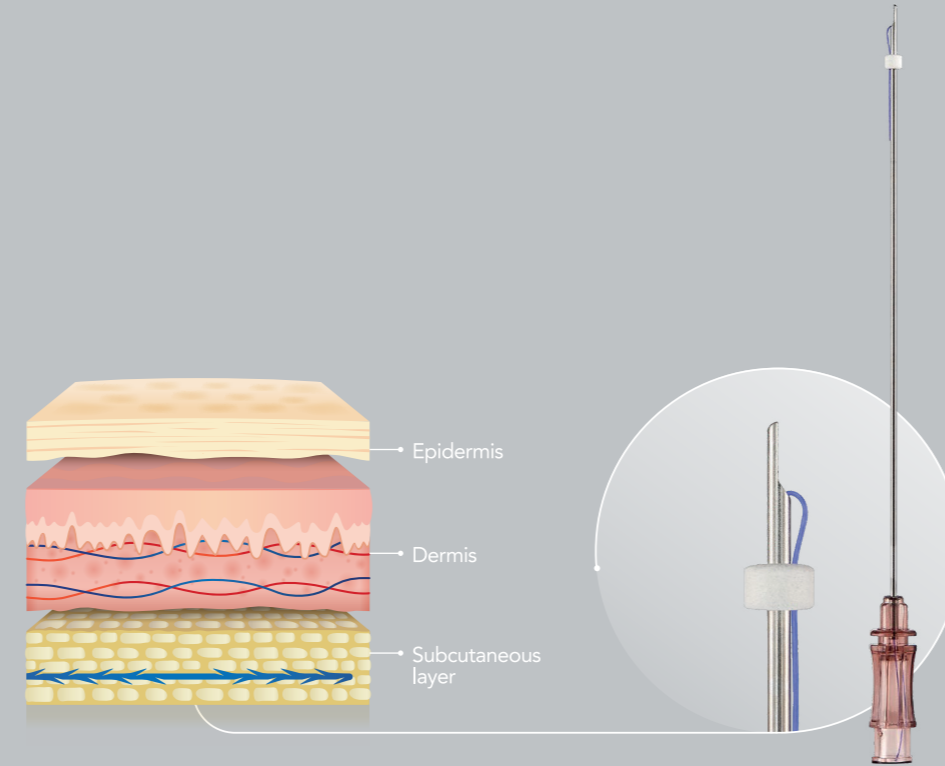

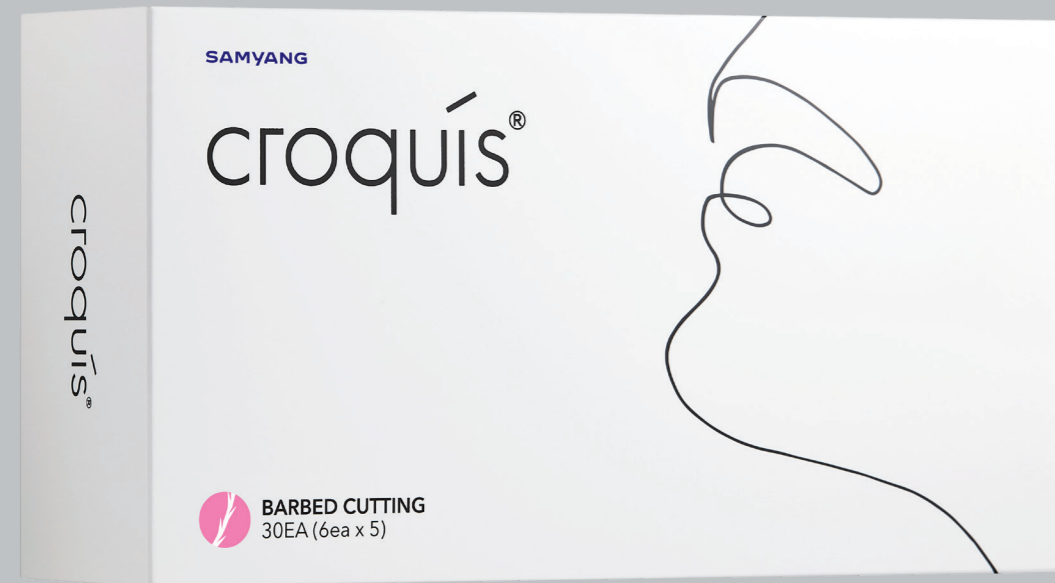

Thread Type : 

L-Cannula		Thread	
Gauge	Length (mm)	USP	Length (mm)
19G	40	6 - 0 x 9ea	60
	60		90
21G	40	7 - 0 x 9ea	60
	60		90

A DDING THAT VOLUME TO Y OUR SKIN

PULLING AND HOLDING THAT BEAUTY

BARBED CUTTING

Skin Quality ●●●

Lifting ●●●

croquí's BARBED CUTTING is used for tissue fixation and repositioning. With absorbable component and neocollagenesis, BARBED CUTTING type provides a younger and beautiful look.

Material : PDO (Polydioxanone)

Contains : 30ea / box (6ea / Al pouch * 5)

Thread Type : (3D, Bi-Directional) (Reverse Bi-Directional)

L-Cannula		Thread		Barb
Gauge	Length (mm)	USP	Length (mm)	
18G	100	2	150	(3D, Bi-Directional)
19G	60	0	105	
	90		140	
20G	60	2 - 0	105	(Reverse Bi-Directional)
	90		140	
19G	40	2	50	
	50		70	

BARBED MOLDING

Skin Quality ●●● | Lifting ●●●+

croquis[®] BARBED MOLDING is used for a stronger lift. By using the pine tree-like barb shape, BARBED MOLDING type gives a helpful solution to skin laxity.

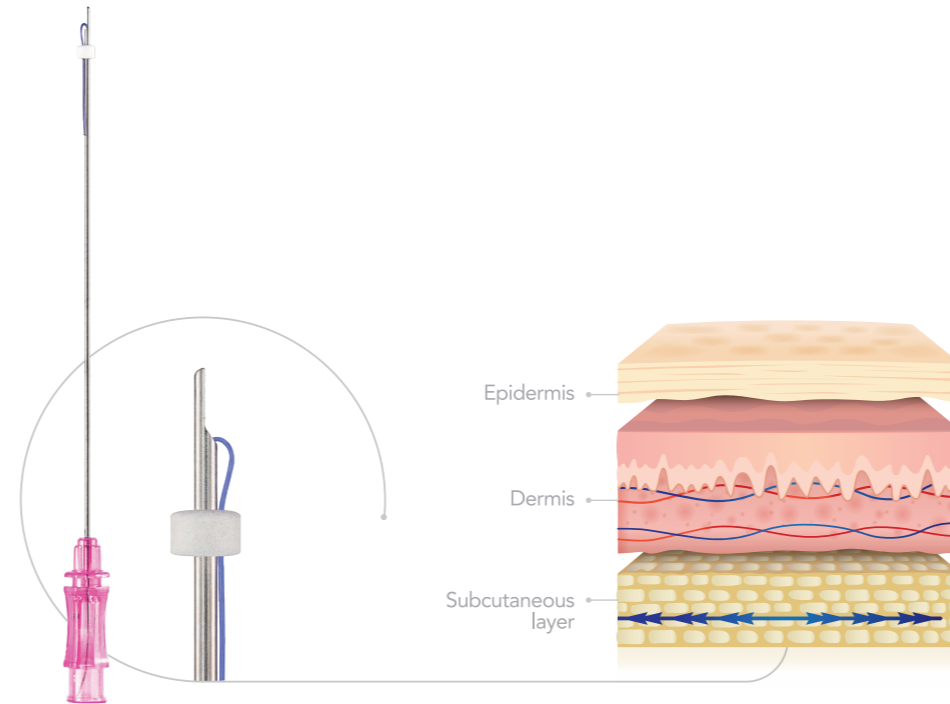

Material : PDO (Polydioxanone)

Contains : 30ea / box (6ea / Al pouch * 5)

Thread Type :  (2D, Bi-Directional) (2D, Multi-Directional)

L-Cannula		Thread		Barb
Gauge	Length (mm)	USP	Length (mm)	
18G	100	2	150	● (2D, Bi-Directional)
19G	100	1	185	
19G	70	1	155	● FIX (2D, Multi-Directional)
	100		185	
20G	70	0	155	
	100		185	

EN HANCING AND KEEPING THAT LIFT

Guaranteed Quality

High stability of croquis[®] can solve quality-related issues during storage and distribution processes. Such stability provides mutual trust to global customers.
